This copy of a Dallas P.D. intv. report was given to me by Jim Garrison 11/19/71. He said it had been sent to him anonymously by one signing himself a former Dallas policeman, no return address. Without giving it deep thought, it seems a little too pat: Oswald aka Hidell, Jack Ruby, a former FBI agent — all this and a policeman named Hargis, too! Yet the UPI story does give it an authentic touch. I should try to get rest of it. It does break at a provocative point, presumably being all that J.G. got & retyped. I would not encourage speaking to grand now & do not propose to when in Dallas. This is written en route, 11/24/71 p.m. I do propose attempting an official checking, if that, from what I have, is still possible
